SUMMARY

A Hard-working, confident and passionate Game Developer who graduated from Falmouth University. I aspire to be a creative director at a game studio, however, I recognise that prior experience is required, and I am open to working in other roles as I pursue my goal. I can work under pressure and reach deadlines on time, with a drive to see work through to completion. Furthermore, I enjoy working together in a team and on my own initiative. I have a logical approach to solving problems, with a sprinkle of creative influence. In short, I am dependable, diligent, and eager.
